Health and Beauty Helps BY MRS. MAE MARTYN.

Clara: I know parnotis will greatly reduce your weight, and when this is done you will feel much better and healthler. To prepare the treatment, get from your druggist 4 ounces pare notis and dissolve in 1½ pints hot water, then take a tablespoonful at meal time. This acts gradually and gently and safely reduces weight without resorting to violent exercise or dieting. This treatment is far superior to any "pattent" fat-reducer, for the reason that the graceful lines of the figure are regained and the fiesh and skin are left firm and smooth.

The cheap refrigerator with too meager ice capacity proves uneconomical - and so does the larger one that is not built scientifically.
